

COMPANY PROFILE

ABOUT

We buy and sell industrial and home robots for all types of applications. From Pick and Place robots to materials handling robots, from tiny nanorobots for medical applications to micro-drones and autonomous birdbots for military applications. From autonomous tractors to seed planters and general-purpose home robots. We do it all.

OFFERINGS

Our end-to-end robotic app development, system integration and asset financing solutions encompasses following areas:

Turnkey project & asset financing for businesses setting up new factories & production lines with 100% automation & remote monitoring, repair & maintenance management through our US group company Efimov Capital LLC.

Trading, import and export of robotic platforms, mobile robots, home robots and cobots
